PET FUNERAL HOME AND CREMATORY

LOCALLY-OWNED AND OPERATED

Cremation Urn and Remembrance Collection Catalog

What size urn do you need?

Please keep in mind when selecting an urn the standard practice to determine the size needed is based on your pet's weight. Every one pound of weight for your pet requires approximately one cubic inch of space. For example, your pet weighs 38 pounds. The size urn you would need would be about forty cubic inches.

If you have any questions, please give us a call.

TEDDY BEAR KEEPSAKE URNS

Pictured are the three Teddy Bear Keepsake Urn colors we offer (Brown, White and Tan). **Each Bear has a Velcro opening in the bottom for the easy installation of your pet's ashes (about 10 cubic inches of remains).** As a keepsake urn, you're not able to install all of your pet's ashes in one singular bear. A small red plastic heart-shaped container is included with each Bear for holding a small quantity of ashes while inside the urn. Each Bear is approximately 13" left-to-right, 12" tall and 9" front-to-back.

These beautifully made Teddy Bear urns are the perfect urn for those individuals looking for a huggable memorial which they can display and remember with daily affection. This urn design is preferred by parents struggling with the challenge of lessening the pain and loss experienced by their small children and young adults. **As a keepsake urn, many families divide their pet's ashes amongst different family members and purchase multiple Teddy Bears.** Whatever your choice, please accept our sincere condolences as you bring your beloved pet home one last time. We truly believe that in the future, all pet owners will be reunited with their animal friends.

MEMORY GLASS

SUPRISINGLY MEANINGFUL

All Memory Glass memorials and jewelry can be created using soil, sand or dirt from a burial plot, a family farm, wedding site or any special location dear to you and your loved one.

SAND

Perfectly white sand can be rather clear as it is mainly pure quartz (main ingredient in glass).

As seen in the red and blue galaxy orb to the right, the sand is visible, a bit more subtle and less white than traditional or dirt/soil pieces.

EARTH

Depending on the specific mineral content of the soil, dirt or sand, it will change color.

Earth usually turns off-white when infused into the glass, like the red solid galaxy orb to the left.

However, occasionally, the earth will take on different shades ranging across the color spectrum.

The Rainbow Bridge

There is a bridge connecting Heaven and Earth.

It is called the Rainbow Bridge because of its many colors.

Just this side of the Rainbow Bridge, there is a land of meadows,
rolling hills and beautiful valleys, with lush green grass.

When a beloved pet dies, the pet goes to this very special place.

There is always food, water and sunny warm spring weather.

The old and frail animals are young again.

They romp and play all day with each other.

There is only one thing missing.

They are not with their special person who loved them on earth.

So each day they play until that one day comes when
suddenly he or she stops playing and looks up.

The nose twitches! The ears are up! They are staring!

This one suddenly runs from the group.

You have been seen, and when you and your special friend meet,
you take Him or Her into your arms and embrace.

Your face is kissed again and again.

You look once more into the eyes of your trusted pet.

Then you cross the Rainbow Bridge together...

Never to be separated again...
